QUALITY POLICY

EIYE JERRYS NIGERIA LIMITED (EJNL) Management is totally committed to satisfy our client's needs by using good quality materials that meet international standard as well as be the leading engineering service provider. Achieving the highest quality standard with the co-operation of all employees in all its operational activities: - Electrical, and Mechanical Engineering works in the Beverage industry, Oil & Gas and Power sectors including, Fabrication, Refurbishment, Maintenance and Installation Services. Our philosophy is to provide quick world class and efficient services to our client's at the most affordable price with reasonable returns to our stakeholders to enhance client's satisfaction. We shall ensure our activities for project realization are in line with international standard that fully meet or surpass our client's and relevant interested party's expectation and requirements in terms of quality, cost and delivery schedule.

We engage well trained Engineers and technicians in carrying out installations and services within the set time frame and do all that is practically reasonable to maintain a good standard.

We provide world class and efficient services to our valued clients at the most affordable price and reasonable returns to our stakeholders.

EJNL will achieve this through the effective implementation of ISO 9001:2015 compliant Quality Management System (QMS), with basic focus on the following intents:

- Determine the internal and external issues that affect our business process
- Identify the needs and expectations of all our interested parties
- List out the risks and opportunities associated with our process and determine mitigation measures for the risk.
- Review our work process periodically to ensure performance monitoring thereby enhancing continual improvement of our business.

This Policy will be communicated, understood and applied to all EJNL employees, contractors and sub-contractors. The top management of EJNL is responsible for compliance with this Policy, and current versions are always available to all relevant interested parties via the company's website, company profile and office / facilities notice boards.

HSE POLICY STATEMENT

EIYE JERRYS NIGERIA LIMITED (EJNL) is committed to the highest standards in Health, Safety and Environment throughout its operational activities in Electrical, and Mechanical Engineering works in the Beverage industry, Oil & Gas and Power sectors including, Fabrication, Refurbishment, Maintenance and Installation Services.

This is achieved by operating in a manner that prevents illness or injury to her employees, clients and relevant interested parties and the communities in which we work with due regard to protection of the environment.

EJNL is also committed to continual improvement of its health, safety & environmental (HSE) management systems according to legal requirements, by providing healthy working conditions, consultation and participation of workers and their representatives to enhance HSE performance, with the aim of reducing HSE risks to levels as low as reasonably practicable.

EJNL intends to fulfil these commitments through:

- Following the principles and meeting the requirement of ISO 45001:2018
- Considering Health, Safety and Environmental issues as priority in all company activities.
- Adherence to relevant compliance obligations and clients requirements.
- Safeguard, protect the Health & Safety of its employees and of those who may be affected by her operation through proactive identification of Health and Safety Risks and implementation of suitable control measures.
- Ensuring a conducive working environment where incidents and accidents shall be reduced to the barest minimum by identifying company's environmental aspects, minimizing adverse environmental impacts, implementing suitable environmental protection/mitigation measures that are relevant to the context of the organization, and preventing environmental pollution in all her operations.
- Actively promoting high standard of safety consciousness, discipline, and individual accountability amongst all those associated with her activities.
- Ensuring that employees get adequate skills and support to achieve high standard of HSE.
- Ensuring that all contractors working under her control apply HSE standards that are totally consistent with the company's own standards.
- Ensuring pro-activeness in managing changes in HSE management system.

This policy presents the framework for setting HSE objectives.

This Policy will be communicated, understood and applied to all EJNL employees, contractors and sub-contractors. The top management of EJNL is responsible for compliance with this Policy, and current versions are always available to all relevant interested parties via the company's website, company profile and office / facilities notice boards.

Business

Strategy & Vision

Vision Statement

To be one of the leading engineering firm in Nigeria and beyond Africa.
To constantly improve on safety practices while achieving zero fatality in our operations.

Mission Statement

To serve our clientele by finding the best solution to fit their needs.
We are dedicated to provide quick world class and efficient service to our valued clientele at the most affordable price and reasonable returns to our stakeholder.

Strategic Direction

To deliver projects that exceed client expectations in all metrics. Every day, everywhere, we strive to meet this aim, helping clients solve their biggest challenges through mechanical and electrical innovations and breakthrough whilst constantly thriving to surpass our past achievements.

Core Principle

Honesty: To always be truthful, open and candid.

Integrity: To do what we say, live up to the highest standard of fairness and ethical behavior.

Culture: We seek new opportunities to learn, to improve, to teach and add value to our jobs.

Passion: We love what we do. And we take lead.

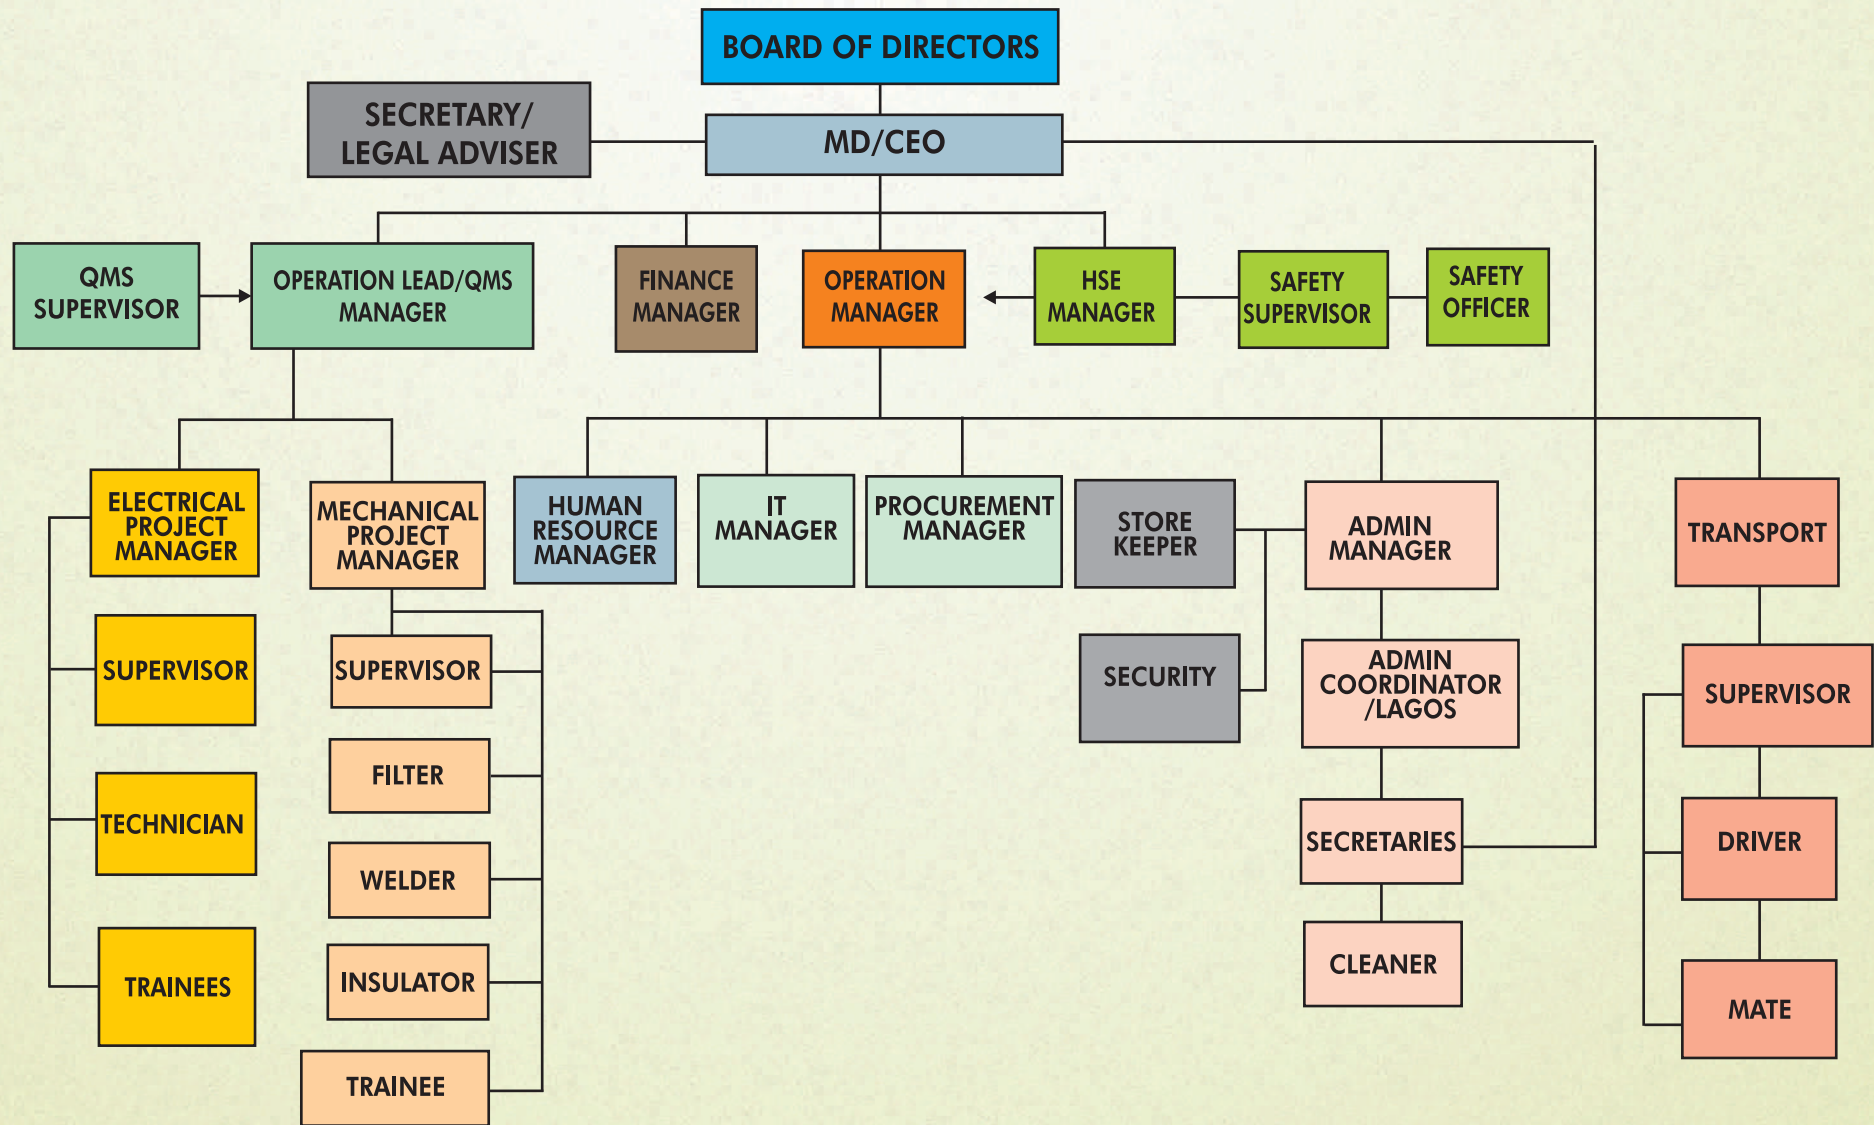

Corporate Values

- Innovative
- Responsive
- Team work
- Safety complaint
- Expert solution partner

Sectors

- Brewery Industry
- Manufacturing Industry
- Power
- Oil and Gas
- Beverage Industry
- Bottle making Industry, etc.

◀ Organogram ▶

◀ Our Leadership ▶

Mr. Eiyegbenin Jerry **Chief Executive Officer (CEO)**

The experience includes; Turnkey projects in substations, projects with notable companies such as Guinness Nigeria Plc, Nigeria Security Printing and Minting Plc, Cadbury Nig. Ltd. Coca Cola and Equatorial Ltd, NBC Plc, Enternit Nigeria Ltd, UBA, Lagos to mention a few.

Engr. Aloysius Chidi Nlewoha **Project Manager**

Is a qualified electrical engineer with the company, he holds a Bachelor of science in Electrical/Electronics Engineering Technology from the University of Nigeria, Nsukka. Member, Nigeria society of Engineers, COREN, etc. Planning and execution of electrical projects, overhead line, Substation, Generator/Diesel engine installation, Transformers etc.

Engr. Julius Nwanogho

Is a non-executive qualified electrical engineer with years of professional experience in planning and execution of electrical project, overhead line, substation, Generator/Diesel engine installation, Transformers etc. He is also involved in supervision of our project installation, repairs and maintenance of the aforementioned concerns.

Barrister Eugene Owobu **Secretary/Legal Adviser**

Engr. Ifeanyi Michael Okonkwo **Lead/Quality Manager**

He holds a Bachelor of Engineering Degree in Electrical/Electronic from the University of Port Harcourt. A corporate member of the Nigerian Society of Engineers with vast experience in project initiation, planning, execution, monitoring, and evaluation. Experienced in management, operation, maintenance and refurbishment of utility plants.

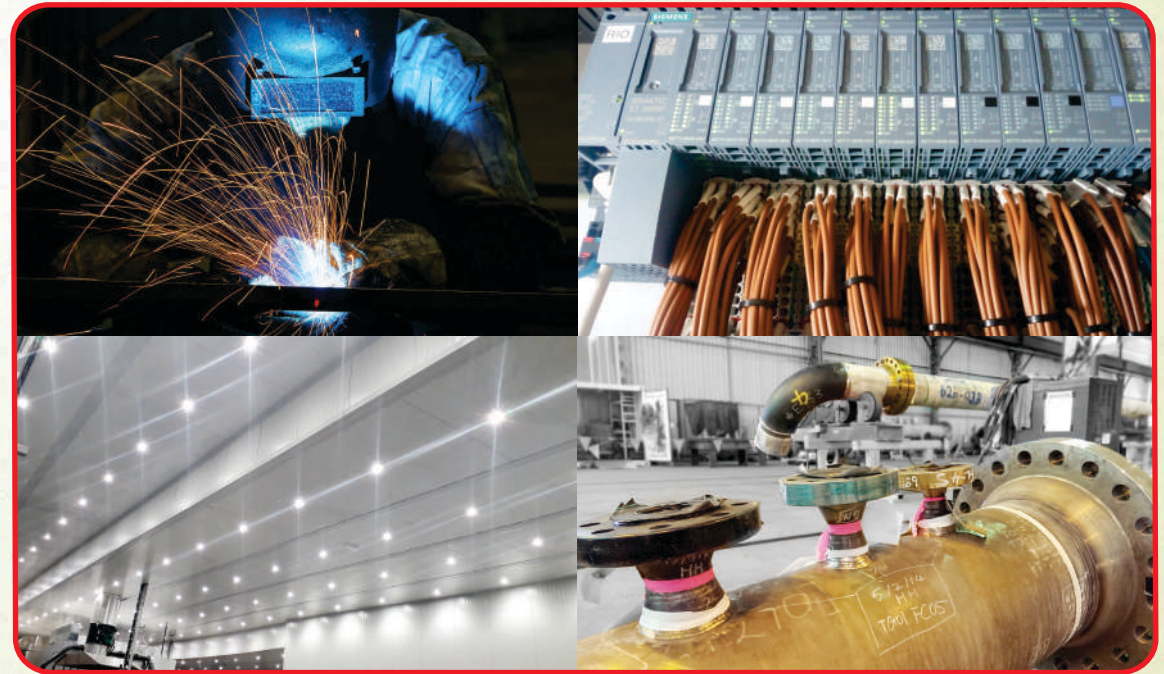

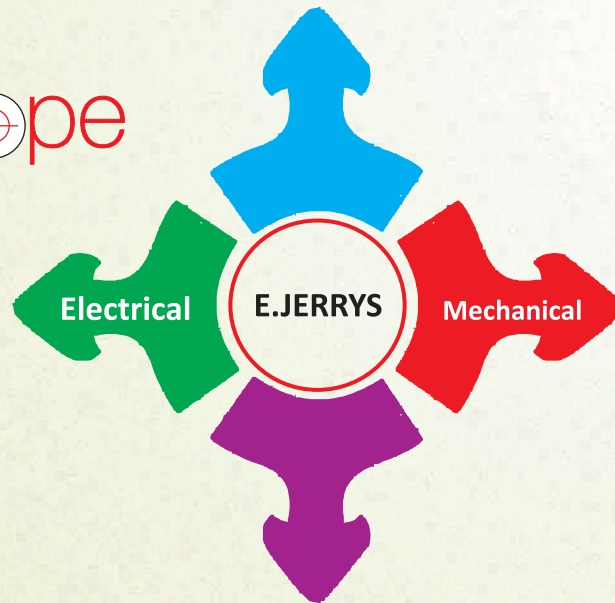

Engr. Fidelis Omiunuta **Mechanical Manager**

He holds a Bachelor of Engineering degree from the University of Benin, in Benin City. He is a member of Certified Maintenance and Reliability Professionals (CMRP). He has wide and varied experience in Industrial plant maintenance, both in brewery and cement factories. A seasoned project manager, involved in capital plant installations, mast fabrication, pipe and tank fabrication and installations, refurbishment of industrial plants and equipment, general fabrication of plants, spares, and parts.

Mr. Festus Usunobun Ukpebor **Electrical Manager**

He is responsible for Project Initiation, planning, and execution. A graduate of Electrical Power Engineering from Auchi Polytechnic, Auchi. He is a member of Certified Maintenance and Reliability Professionals (CMRP) with experience in construction of low voltage panel, installation of HV/LV panel, transformer installations and other electrical equipment, diesel/gas generators, refurbishment of transformers etc.

Scope

◀ Our Strength ▶

- Eiyee Jerrys has already identified the need to train and upgrade its labour force to meet envisaged dynamic challenges of our operating environment and the best approaches are being explored. By this therefore, periodic reorganization is imperative to afford all employee equal opportunities and healthy competition for the achievement of the corporate objectives.
- Thus, Eiyee Jerrys derives its strength from it's pool of experienced professionals most of whom have been in construction industry for 3 decades. The company also encourage and sponsor its skilled and semi skilled employees to continuous improvement programs from which cutting edge procedures that improves our total services delivery to our clients are perfected.

◀ Products/ Services ▶

We supply and install complete industrial electrical systems ranging from:

- Transformers
- Control systems
- Various types of generators (e.g. gas, diesel etc.)
- Switchboards/gears
- Fire fighting/alarm systems
- Electrical Panels
- Rings Main Unit (RMU)
- Various types and sizes of cables, etc.
- Solar Power
- CCTV
- Inverter
- Access doors
- Electric Fencing

◀ Contract Maintenance ▶

As a company of repute, we are able to offer a tailored maintenance programme to suit individual customers requirements. It could be planned, preventive maintenance or a prompt corrective maintenance in case of emergency. Our services maximize client productivity, safety and minimize any possible down-times. These includes:

- Emergency response repairs.
- Electrical power generation, protection distribution, maintenance and repairs
- Rewinding alternator and electric motors.
- Equipment relocation
- Cable relocation
- Preventive maintenance
- Corrective maintenance

◀ Lighting ▶

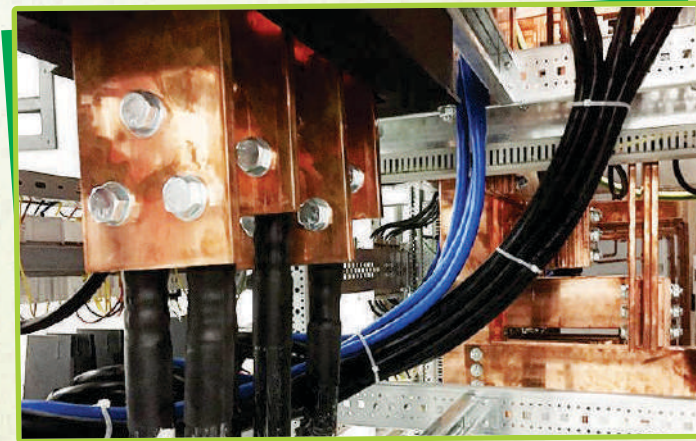

- Re-lamping
- Fluorescent
- LED Lighting
- Metal Halide & High pressure
- Incandescent
- Troubleshooting Wiring
- Street Lighting
- Lighting Control systems

◀ Electrical Panel Systems ▶

We design, construct and assemble LV/Control Panels

With our professional staff skill proficiency, we serve a large number of major industrial and commercial clients in food processing, multiple manufacturing, brewery and bottling companies in this regard.

◀ Testing ▶

Due to global health, safety requirements and standards, we at E.JERRY'S ,are repositioned to provide High Voltage Cable pressure testing and portable appliance testing services to our esteemed clients. With an array of sophisticated testing equipment, our specialized technicians get your electrical appliance tested "OK" or "FAULTY"

◀ List of our Test Equipments ▶

Underground Cable Locator

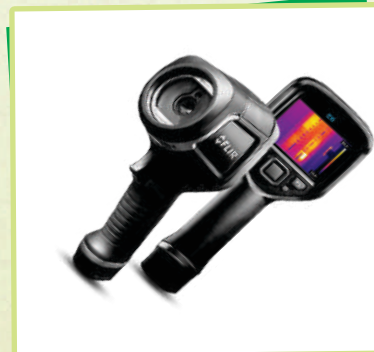

T&R PT18-10 mk2 High Voltage DC Cable Test System

Earth Clamp Tester

Loop Impedance Tester

Infrared Thermography Tester

Portable Appliance Tester

CA 8335 Qualistar Plus Power Analyser

◀ Health & Safety ▶

- We are committed to government and client's HSE policies and practices as long as they are globally acceptable and reasonably practicable.
- Through support, collaboration, active participation and enhanced communication, our safety team has revolutionized our safety culture.

We also have in place, Health, Safety and Environmental policies that is implemented through out offices, plants and work sites.

◀ Mechanical ▶

We also specialize in supply, installation, and maintenance of mechanical systems for new construction and renovation projects with full support from design, budgeting, fabrication and commissioning ranging from:

- General Pipe Fabrication and Installations.
- Fabrication of Street Pole and Lighting Tower
- Argon/Arc Welding
- Structural Fabrication
- Assembly of Equipment
- Mast Fabrication and Installations
- Gas and Diesel Generator Installation

◀ Mechanical ▶

◀ Some past projects ▶

- 11kv/3MVA Gas generator installed for Guinness Nigeria Plc, Benin City, Edo State(2007).
- Installation of main power and line for Nigeria Security, Printing and Minting Plc in 2006.
- Refurbishment of power control room of Nigeria Security, Printing and Minting Plc (2010).
- Installation of Main Power and New Line The Nigeria Security, Printing and Minting Plc. (2010)
- Ogba Brewery Expansion Project Installation of Transformer, Low/High Voltage Panel, Lighting, Gas Generators. Guinness Nigeria Plc (2010-2012)
- Upgrade of LV control power room/system 2011.
- Gas Generators and Fin Fan coolers installation at WEMCO, Lagos State. -2018
- Electrical maintenance of most forte oil petrol station across Nigeria till date.
- Perimeter Lighting Project IMI Ltd, East West Road, Port-Harcourt, Rivers State Nigeria.(2013)
- Lighting Installations New PHC Water Lines, NBC, Port-Harcourt Nigeria. (2014)
- Installation of LV Switch Board and Generator Ajeast Nigeria Limited, Agbara Industrial Area, Ogun State.(2014)
- Dismantling and Installation of 7.5MVA 33/11KV Transformer NBC Ikeja, Lagos/Asejire, Ibadan Plant.(2015)
- 1.6MVA/1.3MVA/1.2MVA Generator Installation Nigeria Brewery, Awomamah, Owerri, Imo State Nigeria. (2015)
- Cooling Plant Installation Champion Brewery Uyo, Nigeria.(2015)
- 3MVA/1.2MVA Generator Installation Guinness Ogba Brewery/Topec.(2015)
- Maintenance of Distribution Transformers Nigeria Brewery Plc, Ijebu Ode, Ogun State.
- Electrical and Mechanical Installations Nigeria Brewery Makurdi. (2015-2017)
- Ikeja Plant B, AGO Power Plant 4*1400KVA/1*1250KVA Diesel Generator Installation Nigeria Bottling Company (NBC) Lagos (2016)
- Asejire Green Field Project Fabrication and Installation of Electrical Panels, HV Network, Cable Management, Lighting, Generator Set and AGO Tank Installation. Nigeria Bottling Company Asejire Plant, Ibadan Nigeria. (Dec. 2016 Till Date)
- Feed Mill Electrical Installations, 18mtrs Lighting Pole Construction and 45mtrs Mast and Perimeter Lighting.
- Installations. Integrated Farms, Olam Nigeria Limited, Kaduna/Abuja Express Road, Kaduna State Nigeria.(Feb.2017-Date)
- Power Project Electrical/Mechanical Installations Cotonou Plant, Aggreko.

Service Areas

Our service area span across the six geopolitical zones in Nigeria.

◀ Our Clients ▶

◀ Solution Partner ▶

BOULTING Boulting Group Ltd.

Chapel Rd, Penketh, Warrington, Cheshire, WA52PL

T: +44(0) 1925726661, **F:** +44(0) 1925723508

E: international@boulting.co.uk, **W:** www.boulting.co.uk

We have worked closely with Boulting Group Ltd as a solution partner for over fifteen years and have reached a memorandum of understanding (MOU) to this effect. Boulting Group Ltd is an English company based in United Kingdom and has been in existence for over 100 years. Occupies same office with E-JERRYYS in Nigeria.

SERVICES RENDERED:

Boulting Group offers a full suite of Engineering construction services for all mechanical, electrical, instrumentation and control projects either as a single service or complete turnkey solution.

◀ Re-organisation ▶

- After incorporation in 1995, E. JERRYYS Nig. Ltd. Was re-organized after a careful and critical study of the Nigerian power sector, economic situation and general business environment vis-à-vis what is prevalent in advanced economies.
The result is our model that provides values, opportunities and benefits to the maximum. It also provides
- information on timely basis for very high returns in the industry. In creating this unique business model, time-tested professionals in the sector, with background knowledge of the intricacies and dynamics of the Nigerian economy and who operated first-hand in most segments of the economy were consulted and involved in restructuring the E.JERRYYS model.
